CCR No. 98-0102	Logged Date 01-26-98	Rev. -	Request Type CCR
Priority Routine ☐ Urgent ☒ Emergency ☐		Affected Release B.0	Change Class IN

Title (description) Request for HP to run HP OpenView

Documents Affected	Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference
N/A	N/A

RTM Change ☐ **Start New Baseline** ☐

Problem

HP OpenView currently runs on "RELBHPMS" as needed to support the integration lab. Development is starting to use HP OpenView to start/stop and monitor all processes which means OpenView would be running continuously. HP OpenView uses a lot of memory and causes the machine to run very slow . Running HP OpenView continuously will limit which other applications can also run on "RELBHPMS".

Proposed Solution

Once we have identified an available HP for HP Openview and Tivoli to run on install it on the 48 network in computer room 1100 on D1 Rack. Please install the COTS listed on the memo attached.
